HOW TO PAINT IN WATERCOLOR

In this course, you will learn step-by-step how to paint landscapes using transparent watercolor. The objective is to help you understand how to layer your pigment while working on wet-into-wet or wet-on-dry paper. Each week, we will explore various watercolor techniques that will help you understand value relationships, intensities of color, temperature, and how to interpret the color. By mastering these elements, you will better control the medium and develop a deeper understanding of the creative process of transparent watercolor painting.

I WILL EMAIL YOU A REFERENCE PACKET EACH WEEK CONTAINING

- A photo from my personal collection
- The pencil sketch you will copy onto your watercolor paper
- The paints, value photo, and paper I will be using
- A list of what you will accomplish in each paint-along

AFTER THE ZOOM STUDIO CLASS, YOU WILL RECEIVE MY START-TO-FINISH STUDIO PACKET

- A photo of each step along the way
- A link to all recordings will be available after each ZOOM session and accessible as long as my YouTube channel exists. You can return and enjoy your lesson again whenever you like!
- ZOOM critiques

MORNING ONLINE ZOOM CLASS

Thursdays February 13-March 13, 2025
10:30 - 1:00 PM CST

All Levels • Tuition: \$225.00 • Five-week session
