HOW TO PAINT IN WATERCOLOR

Painting landscapes in transparent watercolor in a step-by-step process. My objective is to have you understand how to layer your pigment while you are working wet into wet or wet on to dry paper. Each week will explore various techniques of watercolor. You will understand value relationships, intensities of color, temperature, and how to interpret the color. As you understand these elements you will gain better control of the medium and develop a deeper understanding of the creative process of transparent watercolor painting.

I WILL EMAIL YOU A REFERENCE PACKET EACH WEEK CONTAINING

- A photo from my personal collection
- The pencil sketch you will copy onto your watercolor paper
- The paints and paper I will be using

AFTER THE ZOOM STUDIO CLASS YOU WILL RECEIVE

- A photo of each step along the way
- A link to all recordings available for 4-weeks after the end of the last studio class
- ZOOM critiques
